

hanit® ROUND POST, REINFORCED

Even stronger, even better

Large animals require a sturdy solution for paddock or pasture fencing, animal-tight fencing or animals compounds. This is why we have made our round posts even more hard-wearing through reinforcement. The rest is the same, the posts are weather-resistant, rot and breakage-proof and extremely durable

Material:

hanit® Recycled Plastic

Diameter:

8 cm

Version:

Solid Material with Point
Also available with bevelled head
Internal Steel Reinforcement S235
(Ø 26,9 mm, wall thickness approx. 2 mm)

Note:

Due to different expansion ratios of plastic and steel, the posts are equipped with an expansion chamber which will be closed with a stopper.

Advantages:

- High Stability
- More durable than wood
- Splinter-Free
- Rot-Free
- No harmful impregnating agents used
- Flexible Use
- Simple installation
- Suitable for the construction of struts

HAHN
PLASTICS

INTERNAL REINFORCEMENT

Technical data of reinforcement:
 Steel tubing: S235
 Diameter: 26.9 mm approx
 Wall thickness: 2 mm approx.

The posts are equipped with an expansion chamber due to the varying expansion coefficients of plastic and steel; this is sealed using a cork.
